The girls' gymnasium class at the Young Women's Christian Association gave an open meeting to the mothers and friends of the pupils last Thursday, and so pleased were the visitors that they have prevailed upon the class to give another open exhibition, to which any woman who cares to do so may come. This will be on Monday afternoon at 3:30, the first lesson day of the new quarter. After Wednesday no visitors will be allowed until the last Thursday of February. Women desiring to enter the morning physical culture class are requested to meet at the room of the Young Women's Christian Association Tuesday at 10:30 a. m. Girls wishing to enter the girls' class may see Miss Bacon at 3 p. m. of that day.

PLAY AN EXCITING GAME OF FOOTBALL

English Team Defeat Sinclair's Eleven—Win By Score of 4 to 1.

The English team, after their defeat by the Thistles, took advantage of Saturday to meet a mixed team of players called together by Mr. Sinclair. The English were without Harvey and Davies, who were unable to attend, and other changes had been made in the team which included Messrs. Morse and Waldron. Their opponents included many old players and a few of the Scotch team. The English lost the toss and played against the sun. The game from the first assumed a lively character and much give-and-take play ensued. The English were the first to score and at half time were leading by three goals. After the interval the Saints played a more vigorous game and under the enthusiastic leadership of their captain expended a great deal of energy. They were, however, handicapped by the lack of combination generally associated with a mixed team, but eventually scored a goal from a concerted attack.

The English scored again before the call of time and the match was terminated as follows: English, 4 goals; St. Clair's, 1 goal.

NOTES OF THE GAME.

Messrs. Morse and Lishman put in excellent work, and should prove useful in future games.

Messrs. Usher and Lindsay were both compelled to relinquish play towards the end of the game from minor injuries.

Baird had considerable work in goal and filled a trying position with success.

Check shows more control of the ball and is rapidly acquiring a knowledge of the game.

Sinclair played with the utmost determination and did the work of two men.

The following teams took part in the match at Makiki:

England—Goal, Gibbs; backs, Owens, Soper; halves, Seymour, Stokes, Riddell; forwards, Irvine, Blackman, Lansdale, Check, Morse.

Mr. H. B. Sinclair's Eleven—Goal, Sinclair; backs, Kelly, Lishman; halves, Robinson, Beardmore, Singlehurst; forwards, Gould, Osborne, Cummings, Lindsay, Clarke.

NEW TELEPHONE COMPANY HERE

Well-known Honoluluans To Build a Good System at Once.

There will be filed in the office of the Superintendent of Public Works today the articles of association of a new telephone company which, on account of its inauguration in the first month of the new century, will be called the Century Telephone Company, Ltd.

This new company has been contemplated for some time, and its formation has been brought about by the continual complaints of subscribers concerning the poor service of the present system.

A. E. Nichols, D.D.S., and W. Howard, M.D., are the promoters, and the officers are as follows: George W. Smith, president; C. E. Wood, vice president; F. J. Lowrey, treasurer; A. Barnes, secretary; E. B. McClanahan, auditor.

The capital stock of the new corporation is to be \$150,000, divided into 15,000 shares of the par value of \$10 each, with the option of increasing the capital from time to time, not to exceed \$1,000,000, and the issuance of shares of the same par value accordingly.

The new company has a strong backing. Halstead & Co., brokers, will have charge of the handling of the stock to be placed on the market. Agents will be sent out immediately to secure subscriptions for the new system.

Two systems are in contemplation. The first of these is the ordinary circuit system and the second is the automatic system which has recently been introduced with such satisfaction in San Francisco.

With this system the subscriber makes the connection with the number he desires by means of a push button, and does not have to depend upon the careless ears of "Central." When he pushes the button in the proper manner the number drops down at the main office, and "Central" makes the connection from sight. No ear-plates are used at the central office, and thus perfect privacy is insured.

If this system is inaugurated it will be a boon to long-suffering Honolulu. Under the automatic system the wires will all be underground, and there will be no more reports of "wires crossed;" neither will there be the trouble of induction. Other improvements will be instituted with the new system, and there will be reason for general congratulation among the City's residents, say the promoters.

DANDRUFF WON'T WASH OUT.

The Germ that Causes It Has to be Destroyed to Cure Dandruff.

Many a woman spends an hour twice a week scouring her scalp, thinking scrubbing off the scurf will cure the dandruff. Two hours a week, at the age of 40 years, she has spent 260 days of 12 hours each or two-thirds of a year of her life, in that vain hope; vain, because you can't cure dandruff without killing the dandruff germ, and the only hair preparation on earth that will do that is Newbro's "Herpicide"—also a delightful hair dressing, and thoroughly antiseptic against all contagion from use of others' hair brushes. It is also a delightful hair dressing.
